

WELCOME ADDRESS

Dear Colleagues,

ISEC is pleased to invite all of you to the "Oculoplastic Symposium" from 28th February 2009 to 1st March 2009 in Boulevard Hotel Mid Valley City, Kuala Lumpur.

Over the years, oculoplastic subspeciality has evolved from performing a few classic procedures with the knife to applications of modern technology such as radiofrequency. It has also expanded to enter into the field of aesthetics and endoscopic surgery.

The scientific programme has been planned to involve topics that will interest the postgraduates as well as the general ophthalmologists and oculoplastic surgeons. It brings together the experiences of our local experts as well as our renowned oculoplastic surgeons from the Asia-Pacific region.

The vision and mission of ISEC is to be a centre of excellence in service, teaching and research, both regionally and internationally. In order to encourage continuing medical education, the registration fees will be subsidized for all participants.

Please block your calendar on these dates, and we do hope to see you at this coming symposium!

DR KAMALA DEVI LINGAM

Scientific Programme Co-Chairperson

SPEAKERS

LOCAL FACULTY

Dr. Wan Zalina bt Mohamad Zain
Dr. Hamidah Budin
Dr. Sheamala S.
Dr. Zurina Zainal Abidin
